"I authorize the use of my personal data in compliance with Legislative Decree 196/2003".  
Brescia, 31 January 2026

Dear Colleagues,

I am writing to express my interest in joining the SLEuro Executive Committee. I am highly motivated to contribute my scientific expertise and collaborative approach to support the work of the Executive Committee in the coming years.

Over the past few years, I have had the opportunity to appreciate the activities promoted by SLEuro. The centre where I work has been a host institution for the training bursary programme since 2020, allowing us to welcome colleagues from other European centres and to engage in valuable scientific and professional exchange. In addition, several of my junior colleagues have participated in the various initiatives offered by SLEuro, including the training bursary programme and the advanced workshops.

My professional activity is primarily focused on the management of SLE and other autoimmune diseases, as well as on reproductive health and family planning in patients with rheumatic diseases. I have been working as the referent of the SLE clinic at our hospital since 2015 and have been actively involved in national and international projects. Furthermore, I have served as a coordinator for both national and international research initiatives.

If elected to the Executive Committee, I would be highly motivated to contribute to the ongoing activities of the Society and to actively support its goals and development. I am particularly enthusiastic about the opportunity to work closely with fellow committee members to further support the growth and impact of the SLEuro Society.

Thank you very much for considering my application.

Yours sincerely

Micaela Fredi
